
LINIER ALKYL BENZENE SULPHONIC ACID

CAS N° 68584-22-5

Specifications

Appearance	Brown to dark brown viscous liquid	RP - 0064
Active Matter (MMW : 323), Wt%	96.0 Min	RP - 0616
Free Fatty Matter, Wt%	2.5 Max	RP - 0210
Free Sulphuric Acid, Wt%	1.5 Max	RP - 19001
Moisture, Wt%	1.0 Max	RP - 0327

TYPICAL PROPERTIES

Density @ 20 °C, Kg/m ³	1050
------------------------------------	------

STANDARD APPLICATIONS

Primary surface active agent in a wide range of heavy duty detergent powder, paste, liquid and bar detergents. It is used in hard surface cleaners for household and industrial applications. Its low inorganic content facilitates formulation over a wide range of concentrations and viscosities.

STANDARD PACKAGING

200 kg, 210 Kg; Metal or Plastic Drums, Isotanks, Ecobulk. Alternative packing sizes may be available upon request.

SHELF LIFE

365 days
