## Starsoft T 90 LM

---

---

### Household & Industrial Division

Starsoft T 90 LM is quaternary ammonium compound. Which is methy sulfate quaternary derived from ditallow ethoxy diamidoamine 90%

#### Typical Properties

- Appearance, 77 F
- Color, Gardner
- Solids, %
- pH, 10% IPA / Water

Viscous Liquid

4 - 6

89 - 91

5.0 - 6.5

#### Applications

- Wetting agent for general purpose application
- Emulsifier agent for textile formulation
- Very good dispersion with low temperature water
